RELEVANT EXPERIENCES

2025	Lay Bare OJT Provided technical support and infrastructure assistance through hardware diagnostics, preventive maintenance (PMS), device deployment, and network monitoring across company systems and branches. Conducted troubleshooting and evaluation of laptops, desktops, printers, mobile devices, HDDs, RAM, and projectors while maintaining inventory records and accountability documentation for company-issued assets. Assisted in monitoring access points, switches, and alerts using Cisco Meraki, troubleshooting intermittent network and Wi-Fi issues, and supporting LAN and firewall connectivity setup. Also contributed to improving internal workflows by organizing Basecamp file systems, creating technical documentation and Help Center resources, designing printer identification systems, and helping develop inventory and maintenance tracking tools using AppSheet, Google Apps Script, Microsoft Excel, and Google Sheets.
2025	Kinetiq MRP Module Database Manager Managed and optimized the database system for the Kinetiq MRP Module, ensuring efficient data flow, storage, and retrieval to support production and inventory operations.
	MediSync Database Manager Designed and maintained the backend database for MediSync, a health tracking app focused on monitoring user medication intake and scheduling alerts.
2023	Cosmic Combo Concept Creator and Sub Developer Conceptualized the core gameplay mechanics of Cosmic Combo and developed the leaderboard system to track player scores and rankings in real-time.

TOOLS AND APPLICATIONS

Graphic Design

- Canva
- Capcut
- Ibis Paint
- Figma

Data Entry and Project Management

- MS Excel
- Google Sheet
- Appsheet

IT and Technical Tools

- Cisco Meraki
- Google Apps Script
- Basecamp
- Printer and Network Configuration Tools

EDUCATION

Bachelor of Science: Computer Science, Expected in 2026
Pamantasan ng Lungsod ng Maynila (PLM) – Manila

Science Technology Engineering Mathematics (STEM): SHS 2022
Universidad De Manila - Manila
